Subject: Re: Status of Abandonment of Goodyear Farms Well

Our local (Phoenix) attorney was in contact with the property owner (Lloyd Levinsky) two weeks ago to confirm his willingness to execute an access agreement. At the present time, the agreement is under review by the attorney and I am hoping to meet with Mr. Levinsky next week when I am in Phoenix. It is Goodyear's hope that we will have an executed access agreement within the next 2 to 3 weeks provided that Mr. Levinsky is reasonable. All discussions that I have had with him indicate that he will be helpful and cooperative although he has not been timely in his responses.

Subject: Status of Abandonment of Goodyear Farms Well

Hi Jeff:

I was in meeting a couple of days ago on PGA-North and there was a question regarding the status of the abandonment of the Goodyear Farms well on the south end of PGA-North. There had been some issues with access the last time we talked and I was wondering how the effort was coming along? Thanks.

Jim
